

BYOD Laptop Enrolment for Senior School

For the latest information regarding the BYOD program in 2022, especially updates to Device Requirements, FAQs, and access to Device Purchasing opportunities, please visit: <https://www.smc.tas.edu.au/learning/technology/>

It's highly recommended that all students beginning Year 7 or new to the Senior School attend a BYOD Enrolment session to help prepare their laptop for the beginning of the school year.

ICT staff will be available to run through the following procedures:

- x Enrolling laptops into the BYOD platform.
- x Installing Microsoft 365 apps.
- x Setting up the OneDrive app to sync your College cloud storage.
- x Installing printers to use at the College.

In addition, new students to the College will be given their login details during these sessions.

Sessions will be run through the mornings of Tuesday and Wednesday, 12 January 2022, with sessions commencing on the hour from 9.00am to 12.00pm both days.

Available sessions can be booked via the following link:

Existing students that are replacing their laptop in 2022 will need to un-enrol or remove their previous device from BYOD management before attempting to enrol a replacement device.

- For guidance, see the guide to [Remove your device from the Company Portal](#) which is also provided on the school [website](#).
- Alternatively, contact the ICT Help Desk for assistance.
